

string®

2017
works

string® works is a series of furniture for a flexible and contemporary work environment. architect anna von schewen and industrial designer björn dahlström began with the origin: nisse strinnings simplicity and ingenuity. they have developed his ideas, adapting them for the modern office and its demands with regard to function, ergonomics and interaction.

2.

2a.

2b.

2. height-adjustable meeting table a medium-sized table that measures 180x90 cm. use it for meetings or as a larger desk and optimizing the height for the situation. desktop in charcoal linoleum and white steel frame.

2a. integrated cable tray. turnable lid for a flexible look.

2b. user-friendly handset that makes it easy to bring the desk up and down as needed.

9.

9. organizers. for wire screen or side panel. pack containing three different sizes, available in white, grey and black.

12.

12. desk drawer. to be mounted under the table top.

2. height-adjustable conference table. a large table measuring 360x90 cm. available in four different colors. just as the desks and meeting table, the steel frame always comes in white.

2.

11. bowl. as an accessory to the free-standing shelf there is a round bowl that can be mounted onto the uprights.

4. filing cabinet. efficient storage of office supplies with adjustable shelves. holds two full rows of binders. easily integrated into the string shelving system.

3. free-standing shelf. thanks to an ingenious modular system of uprights and partitions, the string panels (height 1150 mm) can be mounted as free-standing shelves. shelves can be mounted either on one side or on both sides. the partition is lined with felt to reduce noise in open office environments. the standard string product range can of course be integrated with this free-standing solution.

8. bowl shelf for storage. the bowl shelf has three compartments. it is made from plastic and can therefore also be used as a flower pot.

1. height-adjustable desk. work desk, 160x78 cm, in oak. also available as 120x78 cm and 140x78 cm. wall mounted string system in grey.

people are not built to sit still. therefore, we work better if we can vary our posture. changing position from seated to standing helps improve concentration and makes us feel better. the string® works height-adjustable desk is similar to traditional trestles, but without their heavy appearance. the table frame is made of 40 and 50 mm square metal tubes, a thin dimension that gives the whole table an unusual visual lightness. the desk is created for all types of office environments, but works equally well at home.

6. wire screen for the desk. the wire screen complements the characteristic striping of the string side panel. the wire screen works as a semi-transparent partition between workstations and as a bulletin board.

7. fabric sleeve. to create more privacy, the wire screen can be fitted with a fabric sleeve, which also reduces the sound level.

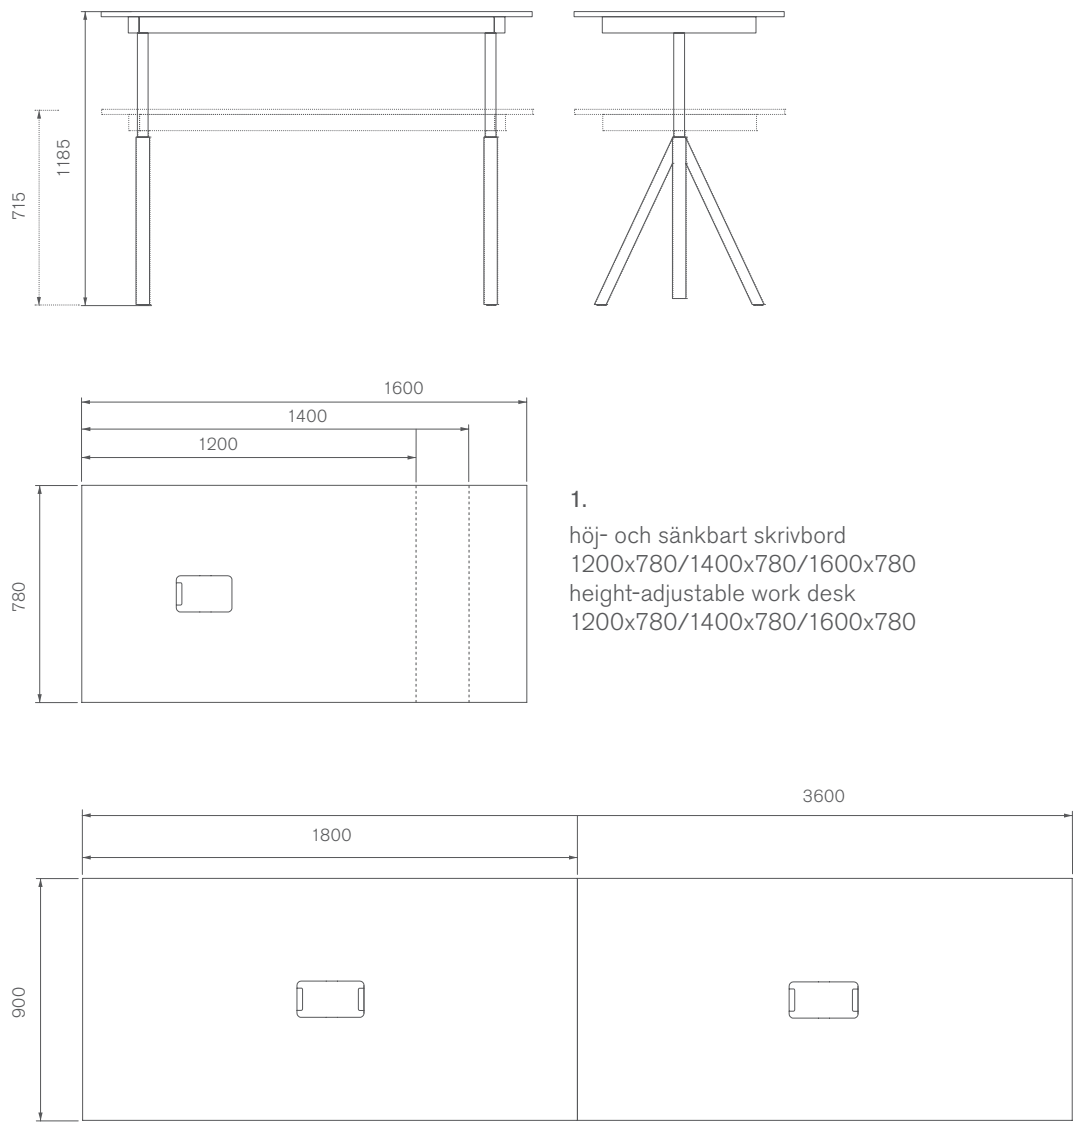

5. mobile storage unit. string® works mobile storage unit has two spacious drawers. one of which is also suitable for hanging folders. the top is made of plastic with two compartments. the storage unit can easily be moved between different workstations by using the inset wire clip on the back.
